*	17724	"B" Unit — M-681. (Motor, Bracket, Fan Blade, Grille and Thumb Nut.)

* Items not shown.

INSTALLATION PRECAUTIONS

To achieve the designed performance of this product, observe all requirements set forth in this instruction sheet and all markings appearing on the product . . . otherwise the warranty is voided. Attach housing to joist and adjust front edge of housing to be flush with proposed plaster line. Handle "B" unit carefully to avoid possible damage to alignment of fan.

To insure firm mounting, housing must be fastened through all four holes provided in the mounting bracket.

Remove tape from the louver . . . at the exhaust opening of the housing, to insure unobstructed air flow.
