**NOTE:** SH-2000 use a solid-state speed control located on the SH-2000 P.C. board reference No. 4  
SH-2000N use the large green resistor reference No. 6 for speed control.

To locate the green resistor first remove the filter panel. The resistor is located under the resistor cover to the right side of the blower housing.

SO models, shell only, use exterior mounted ventilators RF-1N; WF-1N; RF-35 or WF-35.

**NOTE:** Always order by current part number.
